

Improve Profitability & Competitiveness

Thursday 23 October 2008

7.30am - 10.00am

Village Hotel Hyde, Captain Clarke Road, Hyde, Cheshire SK14 4QG

Can you afford to lose a chance to drive up productivity, reduce costs and add more to your bottom line?

Manufacturing Advisory Service North West (MAS NW) and Business Link Northwest have combined forces to provide an unmissable opportunity to access vital business support at a networking breakfast just for manufacturers.

BERR's Manufacturing Advisory Service in the North West, delivered by The Manufacturing Institute – will give an introduction to the principles of lean manufacturing and provide a real life case study from a fellow manufacturer.

Business Link Northwest is an impartial, free-to-use business support and information service for businesses and individuals across the North West and will outline the support available for manufacturing businesses.

"We received good, helpful, practical advice delivered with empathy, humour and understanding"

Colin McDougall, Commercial Director - ECL Chemicals

Improve Profitability & Competitiveness

This is a chance to see just how vital it is to be lean. We will show you how practical process improvement solutions can reduce or eliminate waste and improve your bottom line. You will also hear about the range of services available to support your business and relevant case studies from local manufacturers.

Who should attend?

Managing Directors, Owners, Financial Directors, HR Managers, Production Managers and Team Leaders in small to large sized companies looking for practical ways of improving business performance and competitiveness.
